

Solution Quality	Points
Track 1	20
Track 2 (model must work on track 1)	20
Track 3 (if applicable) (model must work on track 1)	20
Track 4 (if applicable) (model must work on track 1)	20
Track 5 (if applicable) (model must work on track 1)	20

For each track, the score will be evaluated on the following:

- Accuracy of interpreting the track
- Image processing formula
- Stateflow algorithm
- Simulation
